# Organizer subscription prices overview

Interested in organizing events with Meetup? It all starts with signing up for your preferred plan—see all the available options in the table below.

**!** Please keep in mind that the prices you see below are a starting point for Organizer plans, but they may vary depending on your location and any special offers. However, the

information below should provide a comprehensive overview:

Type of plan	1 month	6 months	1 Year
Standard	starting from \$29.99/month	starting from \$99.99/6 months	starting from \$ 174.99/year
PRO	starting from \$55/group/month	starting from \$47/group/month	—

👉 To know the exact price of a subscription for your location and the offers currently available to you, please refer to the [Organizer Subscription page](#) section of your account.

When starting a subscription on Meetup, consider that all fees and transactions are in U.S. dollars unless a different currency is explicitly stated.

Additionally, take into account that prices for Standard and new PRO organizers were increased starting **June 2024**. If you noticed a higher charge than the one you were expecting for your plan, the recent price increase is most probably the cause behind this change. You can find out more about the price increase initiative in the dedicated article [My subscription got increased](#).

If you don't have an active subscription yet, you can start a new group and learn the exact price for the offer available to you on the final step of your subscription activation.

## What's the difference between a Standard and Pro subscription?

Organizers come in all shapes and sizes! That's why we offer two types of organizer subscriptions (Standard and PRO). Explore the differences below:

### Basic group and event creation
